

update from the African Raptor Databank for July 2016:

Since the last update on 4th July we have added a further 2624 records during July but we also removed >2k test import records bringing the total number of records in the database to 135879 at the end of July 2016

Highlights this month include: much new data from northern Kenya (Darcy Ogada and colleagues) and from The Gambia (Clive Barlow); New iOS app brings in 47 new records, Android App 2133, spreadsheets 423 (34 records had invalid coordinates); our first records from North East Africa (Egypt) thanks to Andre including Barbary Falcon and Sooty Falcon sightings.

Records were kindly supplied by the following raptor observers:
